

A free medical camp embracing all the sub-specialities was conducted at Thiruthuraipoondi under the auspices of Advocate G. Thayumanavan G. T. Foundation. Dr. Joseph Eye Hospital, Trichy collaborated on the camp. It was a well organised camp managed by Dr. Sarun George Vargese. Special mention must be made that, although it was a general camp, special tests (which are not done in general camps) such as bone density study, thyroid function test and pulmonary function tests were conducted for many patients. Sophisticated eye examinations were carried out. More than 1000 persons attended the camp. Dr. Thirunavukarasu, Principal, supervised all the arrangements.
